

IN MEMORY OF JAN GEJEL

There are people that their seal and influence can be seen and felt long time after they are not with us anymore. Jan is one of these special people, one of his kind. A person that left us but also leaves us a significant mark, a meaningful impact on each of us, as well as on many people all over Europe. It is almost impossible to speak of Jan in the past tense, his marks and impact will carry on well into the future.

We can certainly talk about legacy – JAN'S LEGACY. His fingerprints are found in many projects all over Europe, but more than that, they are found in our hearts. He is a person who had the exceptional ability to touch people's hearts, to inspire people of all ages, to encourage, to motivate, to mentor and to be a lighthouse for our society. We had the privilege to be partners and friends of Jan, a great privilege, a great challenge, a great fun, a great inspiration and above all a great pleasure.

DEAR MIREIA, there are no words to comfort you for the loss of your life and love partner. Your work together as a team, a winner team, is very inspiring for all of us. Jan left us but WwEU, JAN AND MIREIA, will remain as a brand of quality, of social values, of excellency and of love for Europe and Israel.

We are all standing with you Mireia dear, far from your home but very, very close in our hearts.

Expressing our deepest condolences, dreadfully sorry for your loss and sending you our love.
